Our Mission

The Hellenic Association for Energy Economics (HAEE) is "The think tank that brings together all those who study, debate and promote the knowledge of energy, environment and economy in Greece".

HAEE is the Greek affiliate of the International Association for Energy Economics (IAEE), which is a non-profit research and professional organization acting as an interdisciplinary forum for the exchange of ideas and experiences among energy experts. HAEE was founded in 2015 in Greece, and has a global orientation welcoming the participation of researchers and practitioners from around the world interested in energy, environmental and economic related subjects.

It acts as an independent consulting body for national and international organizations to whom it provides a broad contribution on issues related to energy, economics, policymaking and theory. Through meetings and joint initiatives HAEE also provides a means of professional communication and exchange within its members and the authorities defining the Greek energy policy.

HAEE organizes meetings amongst experts and specialists interested in networking - organizes conferences and seminars on both national and international levels - promotes training initiatives in the energy and economic sector - provides researches, studies and other services for its members.

Conferences

International, regional and national conferences where participants present their latest research, hear about energy industry developments from internationally renowned experts speaking from different perspectives, and network with other energy professionals.

Publications

Peer-reviewed journals and electronic media presenting high quality, leading edge research and ideas on energy and related issues.

Education

Programs and Summer Schools to assist the education of students and young professionals and help them become the next generation of energy professionals.
MEMBERSHIP BENEFITS

HAEE members gain a broader understanding of energy, environment, economics, relevant policymaking and theory. Members are kept well informed by our publications and conferences on relevant matters within the industry and academia and the challenges that lie ahead. Membership provides the opportunity to network within one of the largest Associations globally for energy professionals.

Specific member benefits include:

- Membership of the International Association of Energy Economics (IAEE)
- Priority registration for HAEE meetings, seminars and conferences
- Free attendance at HAEE meetings
- Inclusion in HAEE members directory and access to members area
- More extensive access to material on our web site including past conference proceedings and information on energy economics education and employment opportunities
- Access to a dynamic and active Association website to stay updated on all products/services

PUBLICATIONS

The HAEE members gain access to IAEE’s publications. These are “The Energy Journal”, “Economics of Energy & Environmental Policy” and the newsletter “Energy Forum”. HAEE members receive these publications as part of their membership.

The Energy Journal

The Energy Journal is the official quarterly journal of the IAEE. It was founded in 1980 to promote the advancement and dissemination of new knowledge concerning energy and related topics. The editors strive to publish a blend of theoretical, empirical and policy related papers in energy economics. Articles published in the Energy Journal provide rigorous and innovative analyses of interest to academics, energy industry professionals, civil servants and regulators, and the financial community such as Wall Street analysts.

Economics of Energy & Environmental Policy (EEEP)

Economics of Energy & Environmental Policy (EEEP), established as an IAEE publication in 2012, is policy oriented. It provides a scholarly and research-based, yet easily read and accessible source of information on contemporary economic thinking and analysis of policy issues in the interface between energy and environmental economics. Its editors are Jean-Michel Glachant (European University Institute in Florence), Paul Joskow (Alfred P. Sloan Foundation) and Michael Pollitt (Cambridge University).

The Energy Forum

Four times a year IAEE sends its members the “IAEE Energy Forum”. The newsletter gives an account of IAEE Affiliate/Chapter activities and provides special reports and energy information from around the world. The Newsletter also contains articles on a wide range of applied/topical energy economics issues, as well as notes and special notices of interest to members. Further, the publication lists a calendar of upcoming conferences/seminars/trade shows as well as recently published books of interest to energy economists. If you are interested in receiving a subscription to the “IAEE Energy Forum”, you can join online.

Conference Proceedings

IAEE publishes proceedings from the papers presented at its conferences, making them available for member access on our website, free of charge. IAEE Conference Proceedings have gained widespread acclaim from the membership.
Our conferences provide a cost-effective and pleasurable opportunity to hear not only the latest research in energy economics but also the critical energy industry issues exercising governments and firms. IAEE holds an annual international conference. It also sponsors periodic regional meetings in Europe, North America, Asia and Latin America that discuss regional issues more directly relevant to some members. IAEE Conferences attract delegates from the most influential government, corporate and academic energy decision-making institutions. Keynote and luncheon speakers include leading industry specialists and well-known authorities. Members may submit their current research and present their findings on all facets of the energy industry in concurrent sessions where they obtain feedback from leading professionals in the field. Our conferences also provide many opportunities to network with other professional energy economists. IAEE conferences also feature special contests and prizes for students, while students also are eligible for reduced registration rates.

Conferences

Affiliate/Chapter Activities

IAEE members may take advantage of the wide range of Affiliate/Chapter activities and meetings in many countries and several major cities in the United States. Most Affiliates/Chapters meet on regular basis to discuss energy related topics. Several IAEE Affiliates publish their own energy economics newsletters and directories.

IAEE Events

National Conference

This is the association’s major annual event that addresses energy, economics and environment related issues of vital concern and importance to governments and industries. It provides a forum where policy issues are presented, considered and discussed at both formal sessions and informal social functions.

International Conference

This meeting is hosted by an active Affiliate of the Association. Recent meetings have been held in Daegu, Perth, Stockholm, Rio de Janeiro, San Francisco, Istanbul, Wellington and Potsdam.

North American Conference

This meeting is hosted by the United States Association for Energy Economics (USAEE). Recent meetings have been held in Anchorage, Austin, Washington, Calgary, New Orleans, Houston, Ann Arbor, Detroit and Mexico City.

European Conference

This meeting is hosted by an active European Affiliate of the Association. Recent meetings have been held in Düsseldorf, Venice, Vilnius, Florence, Vienna, Bergen, and Zurich.

Asian Conference

This meeting is hosted by an active Asian Affiliate of the Association. Recent meetings have been held in Kyoto, Taipei and Perth.

Latin America Conference

This meeting is hosted by the Latin American Associate for Energy Economics (LAAEE). Recent meetings have been held in Montevideo, Buenos Aires, Santiago and Salvador.

HAEE members will regularly receive conference and registration announcements regarding the Association’s meetings. HAEE members may attend HAEE and IAEE endorsed conferences at reduced rates.
Become a Member

Any person with an active interest in energy economics is eligible for membership in the Association. Student memberships are also available. Memberships of all types carry the right to vote and to hold office as a member of the HAEE Council, if elected by the membership at large.

HAEE members belong to an international network of energy experts from the academic, industry and public sectors, having access to some of the latest energy research results, and participating in meetings and conferences that are truly informative.

HAEE promotes the understanding of energy, environment and economy related topics within universities and encourages the participation in the Association’s activities of young students who are invited to seminars and conferences and can make use of the IAEE library for their academic works.

HAEE is financially supported by member dues, contributions for research activities carried out for companies and bodies involved in the energy field, and by the sale of conference proceedings as well as conference fees and other initiatives.

Direct Membership

The combined direct HAEE and IAEE membership provides entrance to HAEE meetings, accessing HAEE publications and the members directory. In addition, subscription to the IAEE journals and access to their conference proceedings and worldwide member directory is also provided.

The membership year runs from January to December. To see the full range of membership fees and benefits, go to: www.haee.gr/membership/membership-rates

Student Membership

Student membership of HAEE provides students with the full benefits of direct membership at a much lower cost. Student HAEE membership also provides students with access to a network of individuals working in academia, the industry and public sector at a senior level.

The HAEE network is an effective field for students’ job hunting. To qualify for student membership you must be a full time undergraduate or postgraduate student and have a valid academic email address, which must be included on your online application form.

Corporate and Institutional Membership

Corporate or Institutional membership allows a company or organization to gain recognition for supporting HAEE while benefitting from a variety of products/services.

Your company’s support will help us host our programme of high quality meetings, conferences and publications, whilst allowing your colleagues to enjoy unlimited access to all our events, year round brand association for your organization on our website, and high level engagement with the community’s various constituencies.

Corporate Members are also welcome to make themselves available for election to serve on the HAEE Executive Committee, the Association’s governing body. Being on the Committee provides the opportunity to shape the strategic direction and activities of the Association.

To see the full range of membership fees and benefits, go to: www.haee.gr/membership/membership-rates

*Institutional members are considered: Academic Institutions, Regional Authorities, Professional Chambers, Government Organizations etc.

About IAEE

The International Association for Energy Economics is an independent, non-profit, organization for business, government, academic and other professionals applying economics in concert with other disciplines to enhance understanding of all aspects of energy production and use. The Association is global in scope and membership, and covers the full range of energy industry participants—including businesses, academia, scientific and other research institutions, consultants, governments, and inter-governmental institutions.

The IAEE was founded in 1977 to provide an interdisciplinary forum for the exchange of ideas about the energy industry.
HAEE MEMBERSHIP APPLICATION

Application Procedure

Direct member and Institutional member applications should be sent directly to HAEE via email at info@haee.gr.

Those applying for the Institutional Membership should complete one form for each individual covered by the membership; one form should indicate the “key contact” for the membership.

Publication Delivery

Members can receive The Energy Journal either electronically or printed and mailed. The Economics of Energy & Environmental Policy and the Energy Forum are available only in electronic form.

Please indicate below how you would like to receive the publications indicated.

DUES ARE PAID FOR ONE YEAR – The direct membership period runs twelve months from January 1st. till December 31st.

NOTE: Dues are non-refundable and memberships are non-transferable. Contributions or gifts to HAEE are not tax deductible as charitable contributions. However, dues payments may be tax deductible as ordinary and necessary business expenses. The one-off payment concerns only those who register with HAEE for the first-time.

* Institutional members are considered: Academic Institutions, Regional Authorities, Professional Chambers, Government Organizations etc.
HAEE’s website has valuable resources available for both members and non-members such as:

- Complete searchable index and articles of The Energy Journal and the Economics of Energy & Environmental Policy
- IAEE Energy Forum (newsletter) archives
- HAEE Affiliate information and contacts
- HAEE conference announcements
- Online access to latest papers, presentations and reports in HAEE and IAEE archive
- Membership application
- Calendar of upcoming energy meetings
- HAEE’s newsletter about the latest association & energy economics news
- Online Membership Directory
- Student membership

Online Membership Directory

As a member of IAEE, we publish contact information (mailing address, email, phone, energy specializations, etc.) in the Online Membership Directory as well as in the membership directory pdf file. The ability to completely search this directory of IAEE members worldwide is available in the members-only section of our website and is an invaluable resource for research and networking.
